## Education

**BACHELOR OF COMPUTER APPLICATIONS (BCA)**  
**(SPECIALIZATION IN CLOUD & CYBER SECURITY)**

Noida, India  
Amity University

## INTERESTS

- AI-powered Web Development and Cloud Computing.
- Exploring Serverless Architecture with AWS

## About Me

Experienced Web & Mobile App Developer with expertise in React.js, React Native, and Express.js. Passionate about building scalable, high-performance applications with a strong focus on user experience and modern development practices. Skilled in problem-solving and collaborating in fast-paced teams, with a commitment to delivering high-quality projects on time while continuously learning and evolving.

## Work Experience

Qwerty Code | Mar 2022 - Aug 2022

### Web Developer

- Developed a blog API using Node.js, Express.js, and MongoDB, with a focus on backend development.
- Implemented server-side logic, created blog operation routes, and utilized MongoDB for data storage, emphasizing robust and scalable API construction.

Freekaamaal.com | Sep 2022 - May 2025

### React.js & React Native Developer

- Specializing as a Front-End Developer, I leverage core HTML and CSS to craft engaging Single Page Applications (SPAs) using React.js and Next.js frameworks.
- I also have strong proficiency in developing mobile applications using React Native.
- I contributed to the development of Woost.io, focusing on the UI module of the mobile application. My front-end expertise helped enhance user experience and interface design, improving overall usability.
